PROFILE

Frontend Developer skilled in React.js, Next.js, TypeScript, and Tailwind CSS. Experienced in building **responsive, scalable** web pages with clean, maintainable code. Strong in **UI development**, performance optimization, and agile collaboration using **Git** and **Jira**.

PROFESSIONAL EXPERIENCE

Frontend Developer, *Cognus Technology* Jun 2025 – Present

- Building scalable features using **Next.js**, **Tailwind CSS**, and **TypeScript** for the **Gradding** platform.
- Refactored legacy code to improve **performance**, **maintainability**, and **reusability**.
- Implemented reusable components to streamline development and ensure **UI consistency** across pages.
- Collaborating with design, backend, and QA teams for responsive UI delivery.

Frontend Developer Intern, *Cognus Technology* Mar 2025 – May 2025

- Built and maintained **multiple responsive pages** using Next.js, Tailwind CSS, and TypeScript
- Resolved **UI bugs** and optimized **performance** to enhance **user experience** and **efficiency**
- Collaborated in an **agile environment** using **Jira**, and managed code with **GitHub**

SAP Trainee, *Diligent Global* Aug 2024 – Dec 2024

- **Hands-on experience in SAP ABAP development**, including custom reports, ALV reporting, module pool programming, and selection screen enhancements, ensuring optimized UI and data retrieval.
- **Implemented CRUD operations** for custom database tables, worked on table control handling, and applied data validation techniques to ensure **data consistency**, **performance optimization**, and **security**.

EDUCATION

Techno India NJR Institute of Technology, 2021 – 2025

BACHELOR OF TECHNOLOGY (Computer Science)

CGPA : 9.10

Delhi Public School, *SENIOR SECONDARY EDUCATION* 2019 – 2021

Percentage : 88

Vivekananda Kendra Vidyalaya, *SECONDARY EDUCATION* 2019

Percentage : 93

SKILLS

CSS, HTML, Javascript, Nextjs, Reactjs, SQL, Tailwind Css

PROJECTS

Financly - A Personal Finance Tracker

- **Developed a user-friendly personal finance tracking application** using React, ANT Design, and Firebase, featuring real-time updates and comprehensive financial management tools.
- **Technology Used:** ReactJS, ANT Design, Firebase
- **Acquired hands-on experience** in integrating React with Firebase, including authentication and real-time database operations for seamless functionality.
- **Enhanced proficiency in leveraging ANT Design components** to create responsive, visually appealing, and intuitive user interfaces for a superior user experience.

Woodify

- Developing a furniture e-commerce website using **Next.js** with a focus on performance, SEO, and smooth navigation.
- Creating **responsive layouts** using **Tailwind CSS** for consistent design across devices.
- Implementing features like **product listings**, **category menus**, and **banners** to enhance user experience.

CERTIFICATIONS

Fullstack Web Development (Mern), Completed training and certification over 2 months, gained knowledge in building dynamic web applications using MongoDB, Express.js, React, and Node.js 📄

Data structures & Algorithms - Series I(Upgrad), Completed the Data Structures & Algorithms Series 1 Certification, mastering fundamental structures like arrays, strings, stacks, queues, and linked lists 📄
